Newsletter December 2023

Dear colleagues,

We want to greet you all and wish you well at this time of year, even though there are disturbing events around the world right now.

2023 has been a year of many changes, that have stirred up the Feldenkrais community in some ways. As a result, the ETC has made some changes. Last week the ETC held a General Assembly and set up a new role on the Board of Directors to cover Strategy and Policy, demonstrating the plasticity of the Method in dealing with changes and that we keep focused on the future of the Feldenkrais Method.

We would like to introduce you to the members of ETC and ETAB, to provide an understanding of the kind of volunteers we have in ETC and ETAB and the tasks that they do. The next few newsletters will include spotlights on a member of each body, starting now with **Beth-Karin Danielsen (ETC chair)** and **Ohad Nachmani (ETAB chair)**.

Full details of the activities of ETC and ETAB will be included in the Annual Report for 2023, to be issued early in 2024.

With regards and best wishes
