Newsletter March 2023

Dear colleagues,

This newsletter is to inform you all what has been and still is the main concern of your reps and their work as members of your ETC through this winter.

ATM-only

The ETC has been working together with their TAB (ETAB) to gather information about the 2-year-training programs called ATM-only.

The ETC invited their member Guilds during fall 2022 for a zoom meeting. The intention was to provide an arena for exchanging information and questions around the ATM-only training programs implemented as pilot projects in the USA and as 2-year training programs in Germany. Through this meeting, the ETC was able to supply ETAB with questions of relevance to the Guilds.

At present we still have questions to ask the people in charge of these trainings. This is the reason why we have waited to invite our Guilds once more. Around the world, the FM community is looking into these trainings and

hopefully will have more information after the General Assembly of the IFF in May.

The ETC will then follow up on Zoom with our Guild boards, estimated June 2023.

AT (Assessment Tool)

In trainings and education in general, there is a need for tools to help secure learning processes and assessment, either as a tool for the student or/and their director or in use for people already trained for keeping up qualifications and development. Our tool called 'AT' is developed, but not yet in a form that makes it ready for use.

To make our Guilds more acquainted with the 'AT', it has been translated into French, German, Italian, Spanish, Hebrew. See website (please click [here](#))

This way we hope to stimulate the Guilds' interest in the work needed to make the tool ready for use.

Website

The preparations to set up our new website are progressing. The new pages will hopefully be in use before the end of this year. Information on this will follow when relevant.

This is a joint work between ETAB and ETC.

ETC annual report: due June 2023
