21<sup>st</sup> June 2024

Dear European and Israeli Feldenkrais community,

So far, the following associations have either voted at their general assembly or the board of directors have taken a stance towards ATM-only.

**Israel:**

A discussion took place at a general assembly. No person spoke in favour of ATM-only trainings.

**Italy:**

As there was the interest from an organiser to plan an ATM-only training, the Italian members voted in may 2024 at their general assembly.

Results: 275 members out of 406 voted (68%) (in attendance or by proxy).

The outcome of the voting was as follows:

For ATM Only Trainings	30
Against ATM Only Trainings	242
Abstain	3

**Spain AFE:**

The members at the general assembly voted against having ATM-only trainings in Spain.

**Sweden:**

Unanimous decision at the general assembly against having ATM-only trainings in Sweden.

**Switzerland:**

The board of directors decided not to allow ATM-only students to teach nor to become members in Switzerland.

The other associations in the ETC/ETAB area have not taken a final decision yet regarding

- 1) The question of allowing ATM-only students as members and to teach in the respective country or
- 2) whether or not an ATM-only training can be organized in this country.

Some associations decided to wait until more information about the content of ATM-only trainings is available, while others might not feel the urge to take a decision until there is a concrete proposal from an organizer or until an ATM-only student wants to work and become member of the association.

We hope this information finds you well.

With best regards,

ETC BoD
